We have two deaths to report this week: Miss Jane Vaughn, aged about 80 years, who died at the home of her sister, Mrs. Fuller, in this city, Tuesday, April 25, 1911; and Joe Farthing, who died at the Red Cross hospital the same day. It will be remembered that Mr. Farthing went to the hospital on the 18th to undergo an operation for the removal of tubercular tumors from the neck. He stood the operation well, but complications set in and he passed away. He leaves a wife, children and many relatives and friends. Word comes from Centralia that William LeGrass, long a citizen of this place, but now making his home with his daughter, Mrs. W. W. Bowman,

of that place, is in a very poor state of health, with no hope of recovery. This will be sad news to his many friends here, who loved and respected him for his many good qualities.

At the close of his sermon Sunday morning, Elder G. H. Bassett tendered his resignation as pastor of the first Christian church, to take effect the latter part of July. On Monday night the official board accepted the resignation and gave Brother Bassett a splendid recommendation. He has done a good work here and has been a faithful pastor.

Sunday was auto day here and many a thirty-mile spin was enjoyed by those owning machines. The rest of us walked.

Mrs. C. W. Ford left for Kansas Tuesday to join her husband, who is at work there, where they will make their home in the future. We hate to see these good people leave, but their interest demands it.

## FREE SAMPLE CURED OLD PERSON'S BOWEL TROUBLE

One of the most remarkable proofs of the unusual laxative merit contained in Dr. Caldwell's Syrup Pepsin is that it is effective not only in people in the prime of life, but at the extremes of ages. As many letters are received from mothers regarding the cures of children, as from men and women of sixty, seventy and eighty years of age. It must be truly a wonderful laxative.

In the cure of constipation and bowel trouble in old people it has no equal. It corrects the constipation, dispels the headache, biliousness, gas, drowsiness after eating, etc. People advancing in years should see to it that their bowels move freely, and if they do not take Dr. Caldwell's

Syrup Pepsin. You can prolong your life by healthy bowel action. Clogged bowels invite disease. Women about to pass the menstrual period cannot do better than use Syrup Pepsin several times a week until the system has settled to its future condition. Among the strongest supporters of Dr. Caldwell's Syrup Pepsin are Mr. W. G. Zorn of New Decatur, Ala., and Mr. George S. Spaulding of the National Soldiers' Home, Kansas, both elderly men. The regular size bottle can be bought at any druggist at fifty cents and one dollar, but a free sample bottle can be had by sending your address to the doctor.

Address him Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

## WHEN TO PROPOSE MARRIAGE

English Lady Would Have Men Propose in Daylight, Preferably Before Breakfast.

The London papers, wrapped in politeness, have fallen into a conspiracy as to the time at which a man should propose marriage. The English lady says in far given to the question of "At the earliest opportunity." But there has come forward a certain Lady Troubridge with a suggestion more amplified as well as more rational than that. She would have men propose by daylight only, and at that preferably before breakfast, at the hour when the human being is supposed to be at the worst.

In making this suggestion Lady Troubridge does not feel that she is advancing anything which will work against the ancient custom of marrying and giving in marriage. She does not feel that the adoption of her idea would deplete the strength of the empire. She feels, rather, that it would strengthen the social fabric.

Lady Troubridge holds that among the causes of unhappy marriages there is none more general than the proposal by moonlight, or in the soft evening glow that illuminates the conservatory, that haven in which the loved and lover escape the crowded ball room. In the unromantic daylight, she believes, thousands of men who should not propose would hold their tongues, for by daylight they look on life as it is, and the fear of consequences enters their hearts.

## WHERE IS CIRCUIT RIDER?

Old-Fashioned Itinerant Preacher Seems to Have Vanished From Present-Day World.

What has become of the old circuit rider? He seems to have gone, to have vanished entirely from the present-day world, although to the older generations he figured in the lives of the people to whom he ministered.

In their day the circuit riders knew little of home or rest, for each had from seven to fifteen parishes, miles apart from each other. When night overtook the circuit rider and his horse—this was the minister's usual mode of travel—he stopped with some member of one of his parishes. And he it said it was great honor, indeed, to have the great fortune to entertain the minister at a meal or over night.

Probably the most overworked man would get to spend one night in a week at home, perhaps not that. His life was uncertain and wandering, but his faith was that which "preach understanding." But his days were numbered and are gone, probably never to be revived. He was a figure, however, that is typical of the pioneers of America—he knew his duty and was faithful in the performance of it.

## A Vital Duty.

Before a girl of the more fortunate classes goes out into society, she must be protected in some way or another. If she is to be a woman, a woman of the world, she must be protected. It may very well be and often is that she needs no instruction whatever, because she is, in that, already made up and appreciable by the tempter. Perhaps, indeed, to such a girl, the idea of being thus well-guarded seems to her, and parents and guardians may when she is deceived and cannot know that they are entitled to. At any rate, for the vast majority of girls some positive instruction is necessary. It is the mother who must undertake this responsible and difficult task before she admits the girl to the portals of the world. Further, by some means or other, instruction must be afforded for the overhauling army of girls who go out to temptation. It is to me a singular coming marvel that loving parents, devoted to their daughters' welfare, should fail in this cardinal and critical point of duty, so constantly as they do.—Dr. C. W. Saleeby, in the Forum.

Where the Billionaire Failed. The millionaire sighed as he looked at the clouds obscuring the lake, and yet no such sigh ever was born of missing a game. His trouble was deeper.

Despite all he could do the billionaire knew that his stock of gold was increasing at a rate little short of scandalous. He had given it away in boxes and chunks, sometimes for a good purpose, and occasionally for a purpose beyond being concerned. He had erected to himself a string of expensive monuments, each one costing him a pretty penny. Nevertheless, money poured in upon him so fast as an army of men could earn it, until he could have wept at impending disgrace, for his ambition was to die poor.—Lita.

## Medical Gossip.

An old doctor, noting a young man who was going along the street with half a dozen shabby-looking men and women, called him aside and asked: "Who are all these people, and where are you going with them?" "I will tell you in confidence," was the reply. "I've hired them to come and sit in my reception room. I expect a rich patient this morning, and I want to make an impression on him."—Judge.

## Acting Too Much.

"My dear," said Mr. Clarkson, "I don't want you to think I have any desire to criticize you for the way you manage, but, really, you must try to live within our means." "Within our means? Oh, indeed! And to be guided by everybody in our old account?"—Judge.
